OBJECTIVE

A solution-oriented and enthusiastic student with an interest in ML, AI and Data Science.

EDUCATION

Bachelors of Technology, APJ Abdul Kalam Technical University 2020-2024

Majors: Computer Science and Engineering, CGPA: 8.6

Secondary Education, Girls High School and College 2019-2020

Intermediate(ISC) : 82.0%

High School(ICSE): 92.0%

SKILLS

Coding Languages and Version Control:	Java, Python / Git and GitHub
Machine learning tools:	Tensorflow and Scikit
Data Analytical tools	Numpy, Pandas, NLTK, Matplotlib
Web Development:	HTML, CSS, JavaScript, SQL
Design Tools:	Figma, Canva

EXPERIENCE

Frontend Developer Intern July 2022 - Dec 2022

TrozenWeb

Prayagraj

- Achieved to launch version 1.0 of the e-commerce website, I wrote the codebase for the UI/UX of the website.

PROJECTS

Image Classifier using Neural Network. Built a tool to classify images from MNIST dataset by using Python, NumPY, and Matplotlib.

Project Details: Data preprocessing, Neural network architecture, Feedforward process: used ReLU, Backpropagation algorithm: SoftMax, Training and validation: 85 % accuracy ([Try it here](#))

E-Commerce Website. Build a project that automates frontend of e-commerce website. This project is made for an NFT Marketplace where one can buy NFTs, learn and end by designing NFTs. ([Try it here](#))

HACKATHONS AND OPENSOURCE CONTRIBUTIONS

- Silver medalist of Smart India Hackathon 2022.
- Second position holder in state at Local Startup meet by IIT Rourkee.
- Open source contributor at ImageLab, ScoreLab. [My Contribution!](#)

EXTRA ACHIVEMENTS

- Virtual presenter at International conference (ROSBIOTECH-MED)
- State Level Winner of Technical/Literacy Fest AKTU
- Linux Foundation and Training Scholarship Winner

ROLE OF RESPONSIBILITY

- Event Lead at Google Developer Student Club at UCER.
- Editor at Rotract Allahabad.
